*Girls of Tender Age* - Mary-Ann Tirone Smith - 2006-02-24
In *Girls of Tender Age*, Mary-Ann Tirone Smith fully articulates with great humor and tenderness the wild jubilance of an extended French-Italian family struggling to survive in a post-World War II housing project in Hartford, Connecticut. Smith seamlessly combines a memoir whose intimacy matches that of Angela’s Ashes with the tale of a community plagued by a malevolent predator that holds the emotional and cultural resonance of The Lovely Bones. Smith’s Hartford neighborhood is small-town America, where everyone’s door is unlocked and the school, church, library, drugstore, 5 & 10, grocery, and tavern are all within walking distance. Her family is peopled with memorable characters—her possibly psychotic mother who’s always on the verge of a nervous breakdown, her adoring father who makes sure she has something to eat in the morning beyond her usual gulp of Hershey’s syrup, her grandfather who teaches her to bash in the heads of the eels they catch on Long Island Sound, Uncle Guido who makes the annual bagna cauda, and the numerous aunts and cousins who parade through her life with love and food and endless stories of the old days. And then there’s her brother, Tyler. Smith’s household was “different.” Little Mary-Ann couldn’t have friends over because her older brother, Tyler, an autistic before anyone knew what that meant, was unable to bear noise of any kind. To him, the sound of crying, laughing, phones ringing, or toilets flushing was “a cloud of barbed needles” flying into his face. Subject to such an assault, he would substitute that pain with another: he’d try to chew his arm off. Tyler was Mary-Ann’s real-life Boo Radley, albeit one whose bookshelves sagged under the weight of the World War II books he collected and read obsessively. Hanging over this rough-and-tumble American childhood is the sinister shadow of an approaching serial killer. The menacing Bob Malm lurks throughout this joyous and chaotic family portrait, and the havoc he unleashes when the paths of innocence and evil cross one early December evening in 1953 forever alters the landscape of Smith’s childhood. *Girls of Tender Age* is one of those books that will forever change its readers because of its beauty and power and remarkable wit.

“A quintessential summer read.” —Marie Claire A warm and wonderfully vivid novel about taking second chances—in life and in the sea One summer day on the beach in Florida, two extraordinary things happen to Maeve Donnelly. First, she is kissed by Daniel, the boy of her dreams. Then, she is bitten by a blacktip shark. Eighteen years later, Maeve has thrown herself into her work as a world-traveling marine biologist discovering more about the minds of misunderstood sharks. While Maeve has always been fearless in the water, on land she is indecisive. A chance meeting on the beach with a plucky, irresistible little girl who is just as fascinated by the ocean as Maeve was growing up leaves her at a crossroads: Should she re-kindle her romance with Daniel, the first love she left behind when she dove into her work? Or indulge in a new romance with her colleague, Nicholas, who turns up in her hometown to investigate an illegal shark-finning operation? Set against the intoxicating backdrop of palm trees, calypso bands, and perfect ocean views, The Shark Club is a story of the mysterious passions of one woman’s life: her first love and new love; the sea and sharks that inhabit it.

Are books hidden in his house? The Mechanical Hound of the Fire Department, armed with a lethal hypodermic, escorted by helicopters, is ready to track down those dissidents who defy society to preserve and read books. The classic dystopian novel of a post-literate future, Fahrenheit 451 stands alongside Orwell's 1984 and Huxley's Brave New World as a prophetic account of Western civilization's enslavement by the media, drugs and conformity. Bradbury's powerful and poetic prose combines with uncanny insight into the potential of technology to create a novel which, decades on from first publication, still has the power to dazzle and shock.

The hauntingly prophetic classic novel set in a not-too-distant future where books are burned by a special task force of firemen. 'Another indispensable classic' The Times "Ray Bradbury's gift for storytelling reshaped our culture and expanded our world" Barack Obama Guy Montag is a fireman. His job is to burn books, which are forbidden, being the source of all discord and unhappiness. Even so, Montag is unhappy; there is discord in his marriage. Are books hidden in his house? The Mechanical Hound of the Fire Department, armed with a lethal hypodermic, escorted by helicopters, is ready to track down those dissidents who defy society to preserve and read books. The classic dystopian novel of a post-literate future, Fahrenheit 451 stands alongside Orwell's 1984 and Huxley's Brave New World as a prophetic account of Western civilization's enslavement by the media, drugs and conformity. Bradbury's powerful and poetic prose combines with uncanny insight into the potential of technology to create a novel which, decades on from first publication, still has the power to dazzle and shock.
